Update your GuideStar Nonprofit Profile

Overview:

GuideStar is a philanthropic research database by Candid used to log and search for nonprofits all over the country. GuideStar can be accessed by individuals and foundations that award grants, like the IRCF. A GuideStar profile can help put your nonprofit on the map so your actions can be rewarded through grants and exposure.

How to Set-up and Use:

Candid uses a tiered seal system: Bronze, Silver, Gold and Platinum. These seals are placed on your profile based on transparency. The more information that you display, the more traction your profile gets on site.
